

## COOLERS – SEOUL AIR CONDITIONING EVAPCO – SOUTH KOREA

**Seoul Air Conditioning Inc.** was established in 1986 specializing in industrial refrigerators, air conditioning and energy. They supply major customers in the USA, Europe and Asia.

In May 2011, air conditioning elements from **Seoul Air Conditioning Co. Ltd.** were protected with **ZINGA** as a cathodic corrosion protection (on old hot-dip galvanisation) and then top coated with **ALU ZM** to get a shiny aluminium finish.

These coolers are located in Song-Do New Town in Incheon City, adjacent to Seoul.

### System:

Sandblasting Sa 2.5 on old hot-dip

ZINGA 1 x 60 µm DFT

ALU ZM 1 x 50 µm DFT

In 2017, **6 years after the ZINGA and ALU ZM application**, these cooling transformers were inspected and found to be in excellent condition with no signs of corrosion or failure.
